# Expanding the bubble-free flexoscape to meet even more customer expectations

As your business expands and process evolve, you can find exactly what your need in the ever widening line of 3M Cushion-Mount Plus Flexo-graphics Plate mounting tapes.

Across the line- Easy Mount Adhesive for the virtually bubble-free mounting.

## Combination Printing

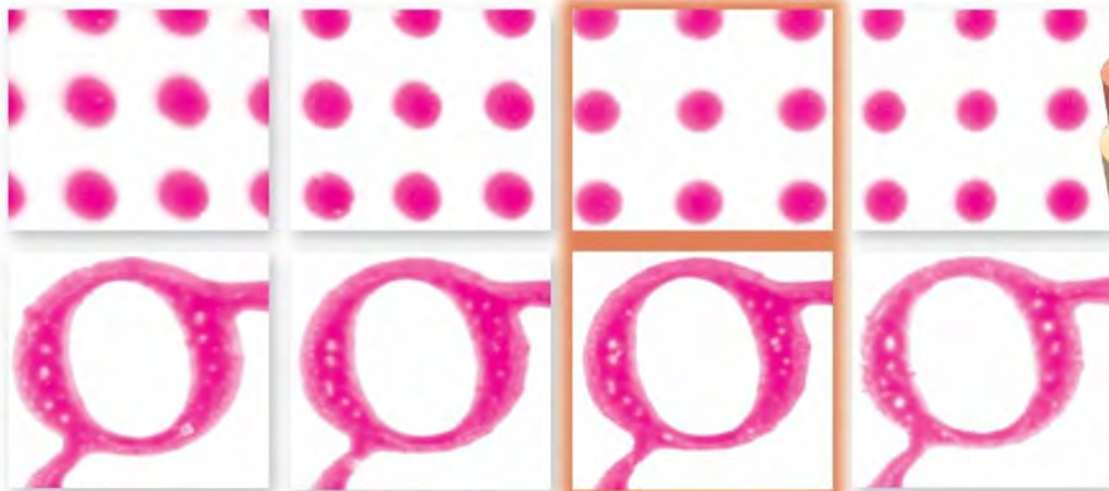

**18 Series: Firm**  
When plate contains mostly solids in a combination of solid and half tone images.

**17 Series: Medium Firm**  
When plate contains slightly more solids in a combination of solid and half tone Images.

**15 Series: Medium**  
For high speed printing with fine type reverses and expanded color gamut.

**10 Series: Standard**  
When solid and half tone areas are Important.

## Process

**13 Series: Medium Soft**  
For high speed printing of combination work when half tone areas exceed solid.

**19 Series: Light Medium**  
Improved tone reproduction at high speed when process and half tone images predominate.

**NEW 12 Series: Light**  
Low density maximizes dot reproduction for high speed process and screen-printing.

**11 Series: Process**  
Low density maximizes dot reproduction for high quality process work and screen printing.
